

OUR FINANCIAL AGREEMENT

The doctors and staff at Penn's Commons Dental Group feel it is equally important for our patients to be as comfortable with their financial arrangements as they are with their dental treatment plan.

To ensure that we have a mutual agreement that is acceptable for everyone, we have designed some guidelines.

- All treatment of \$200 or under should be paid on treatment day. This includes the initial visit of persons with dental insurance.
- All insurance co-payments and deductibles are to be paid on treatment day. If the insurance carrier will reimburse our office, we will wait for them to send payment on the remaining balance. Any unpaid portions will be billed at that time.
- More extensive treatment is generally paid in two payments; half at the start of treatment and half prior to completion unless other arrangements have been established.

We offer several payment options to make your treatment as comfortable as possible.

1. We accept VISA & MASTERCARD & DISCOVER
2. We offer interest free financing with Care Credit for six to twenty-four months. Orthodontic monthly payment plans are available
3. A 5% courtesy reduction for amounts over \$2000 is available; fee must be paid in full at first visit of treatment series. Cash or check payment only for this discount.

We will ask that you sign an additional financial agreement with our office whenever any other extensive dental treatment is planned.

In general, any balance over sixty days will incur a 1% monthly finance charge.

We hope these options allow you to further enjoy your experience with our dental practice.

Please sign that you have read and understand this policy.
